Re: PUCT Docket No. 48787
LCRA Transmission Service Corporation et al
Bakersfield to Solstice 345-KV Transmission Line Project
Pecos County, Texas

Gentlemen:

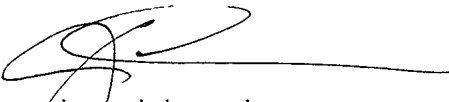

We are in receipt of some sort of notice regarding the captioned transmission line, along with an incomprehensible road map of the area around Fort Stockton, Texas. Likewise, we received a notice for a "CY Group, Inc." of which we have no knowledge. Since the map is incomprehensible due to the scale, would you please furnish me with actual property descriptions, or furnish plats that have the Section, Township, Range, Block, and Abstract Number, or what portions of those Texas Land Descriptions that are applicable.

From the information provided I am unable to determine if this is a second line in and of itself, or if this is just an increase in the width that they desire. This covers approximately 60 miles by 25 miles, which is the equivalent of approximately 1500 sections of land. I cannot determine whether I would protest any leg on this since I have not been provided the proper information.

Your assistance in this issue would be greatly appreciated.

Very truly yours,

Catoico Resource Management LP for
GY Group, Inc., and PH, Inc.

James L. Lucas, Jr.
Oil and Gas Manager
